SUBJECT: Possible Electronics Facility Near Torrens, Cuba

REFERENCE: (a) Requirement C-OI-1-31,017
(b) CIA/PID Project C 211-64

1. In response to your requirement dated 27 January 1964 the following data is submitted as an interim answer.

2. A possible electronics facility of unusual configuration is under construction at 22-58-32N 82-28-37W adjacent to Area 6 of the Torrens Military Complex, Cuba. Construction of the facility was begun between [redacted] 25X1D consisted primarily of two concentric circular cleared earth strips [redacted] 25X1D and 750 feet, respectively, in diameter and a small possible building under construction at the center. Poles or stick masts are located along the inner edge of the outer earth strip. Numerous short poles and drill holes are within the area enclosed by the inner circle. Further study may determine their exact arrangement and purpose. On or about [redacted] 25X1D OCI/Military Division was informed by telephone of the presence 25X1A of a possible MRBM-like configured facility near Torrens, Cuba.

3. The photo analyst on this project is [redacted] 25X1A who may be contacted on extension 2421 should you have further questions concerning this project.

4. This project is not considered to be complete.
